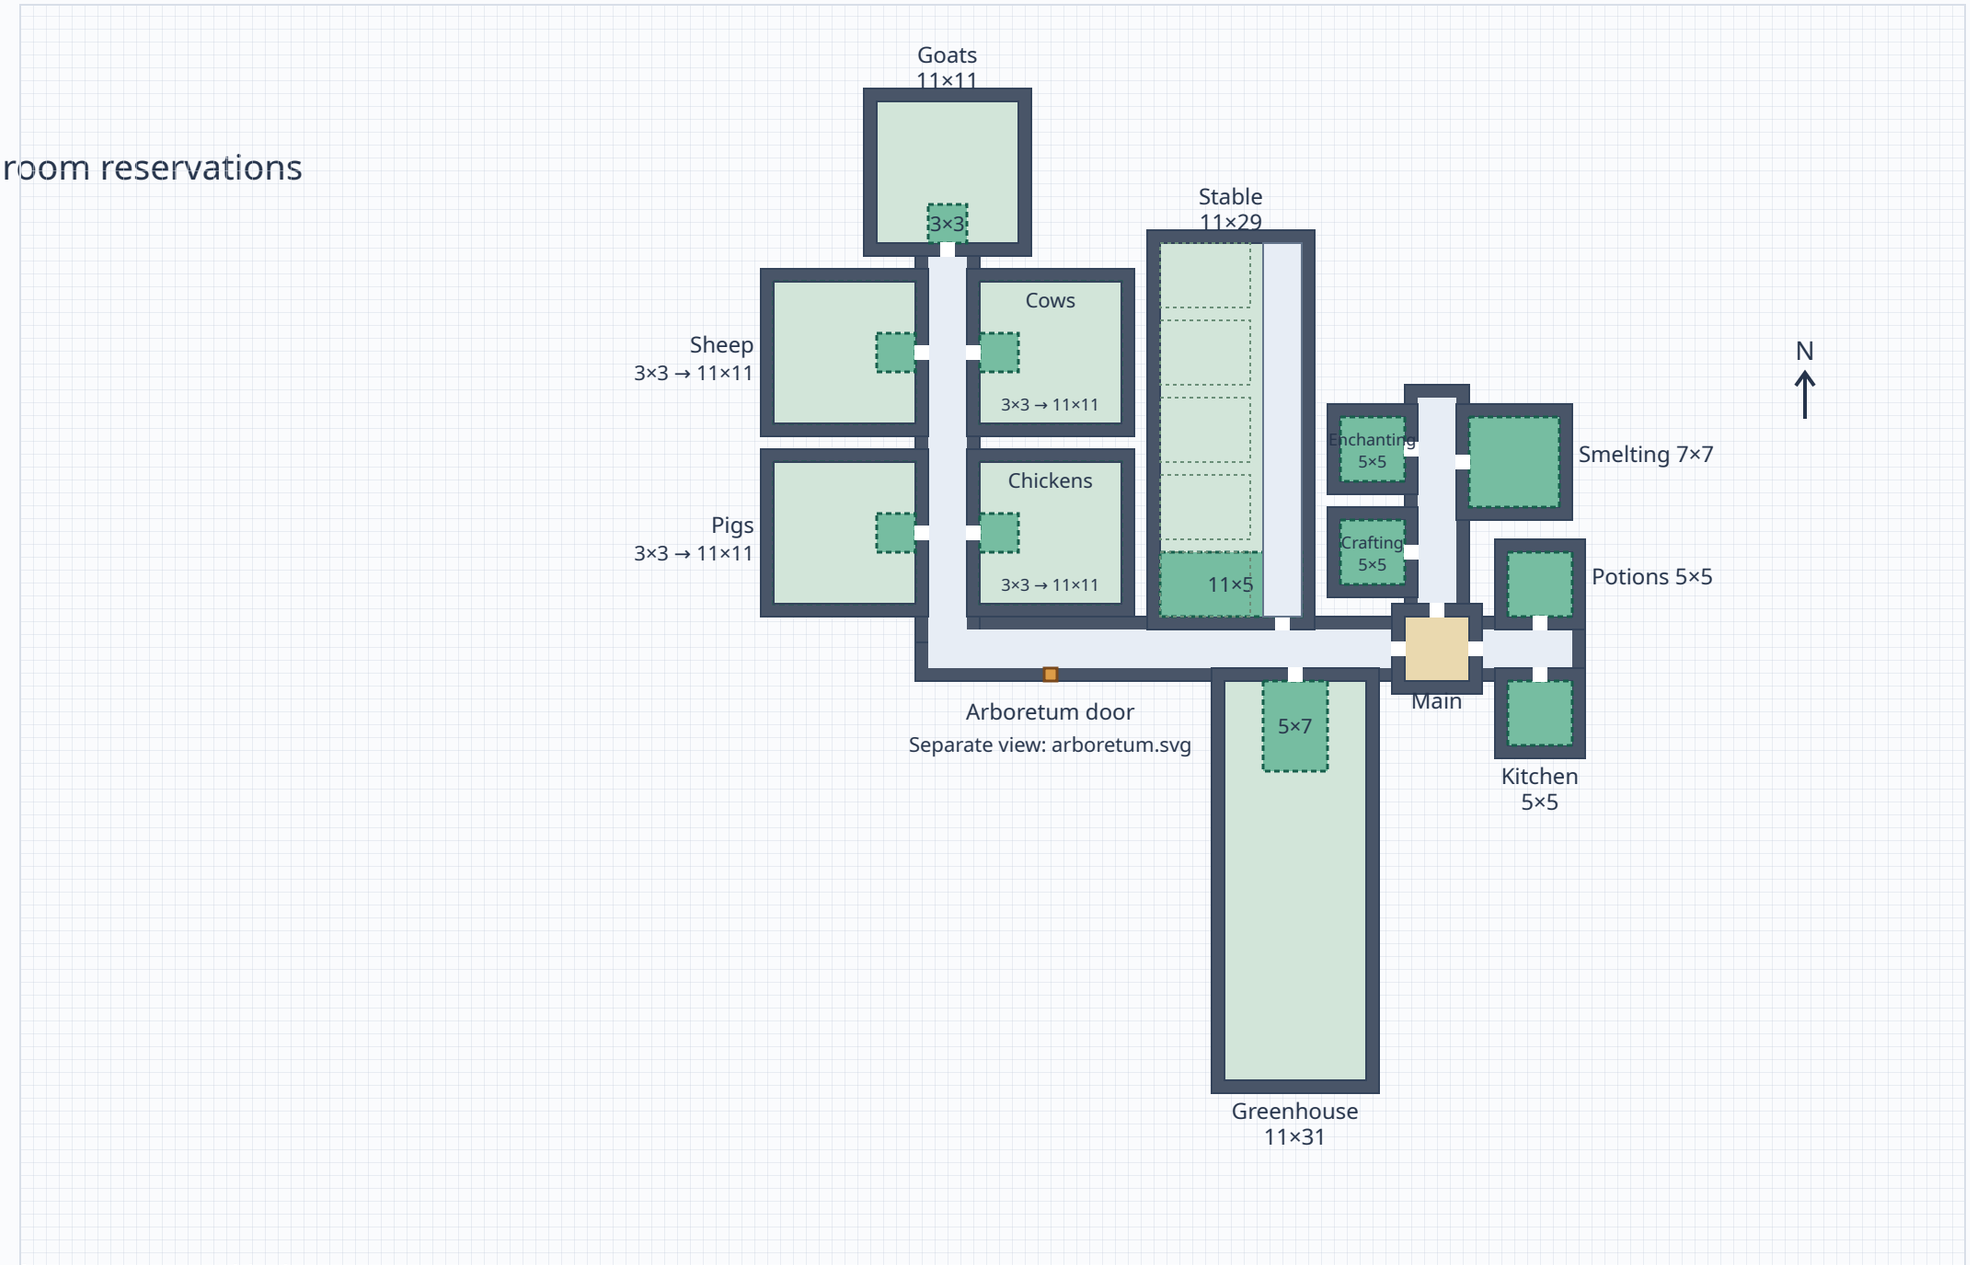
B-0005 · Room layout and arboretum entrance

True scale: 7 pixels = 1 block. Minimum floors overlay maximum footprints. North is up.

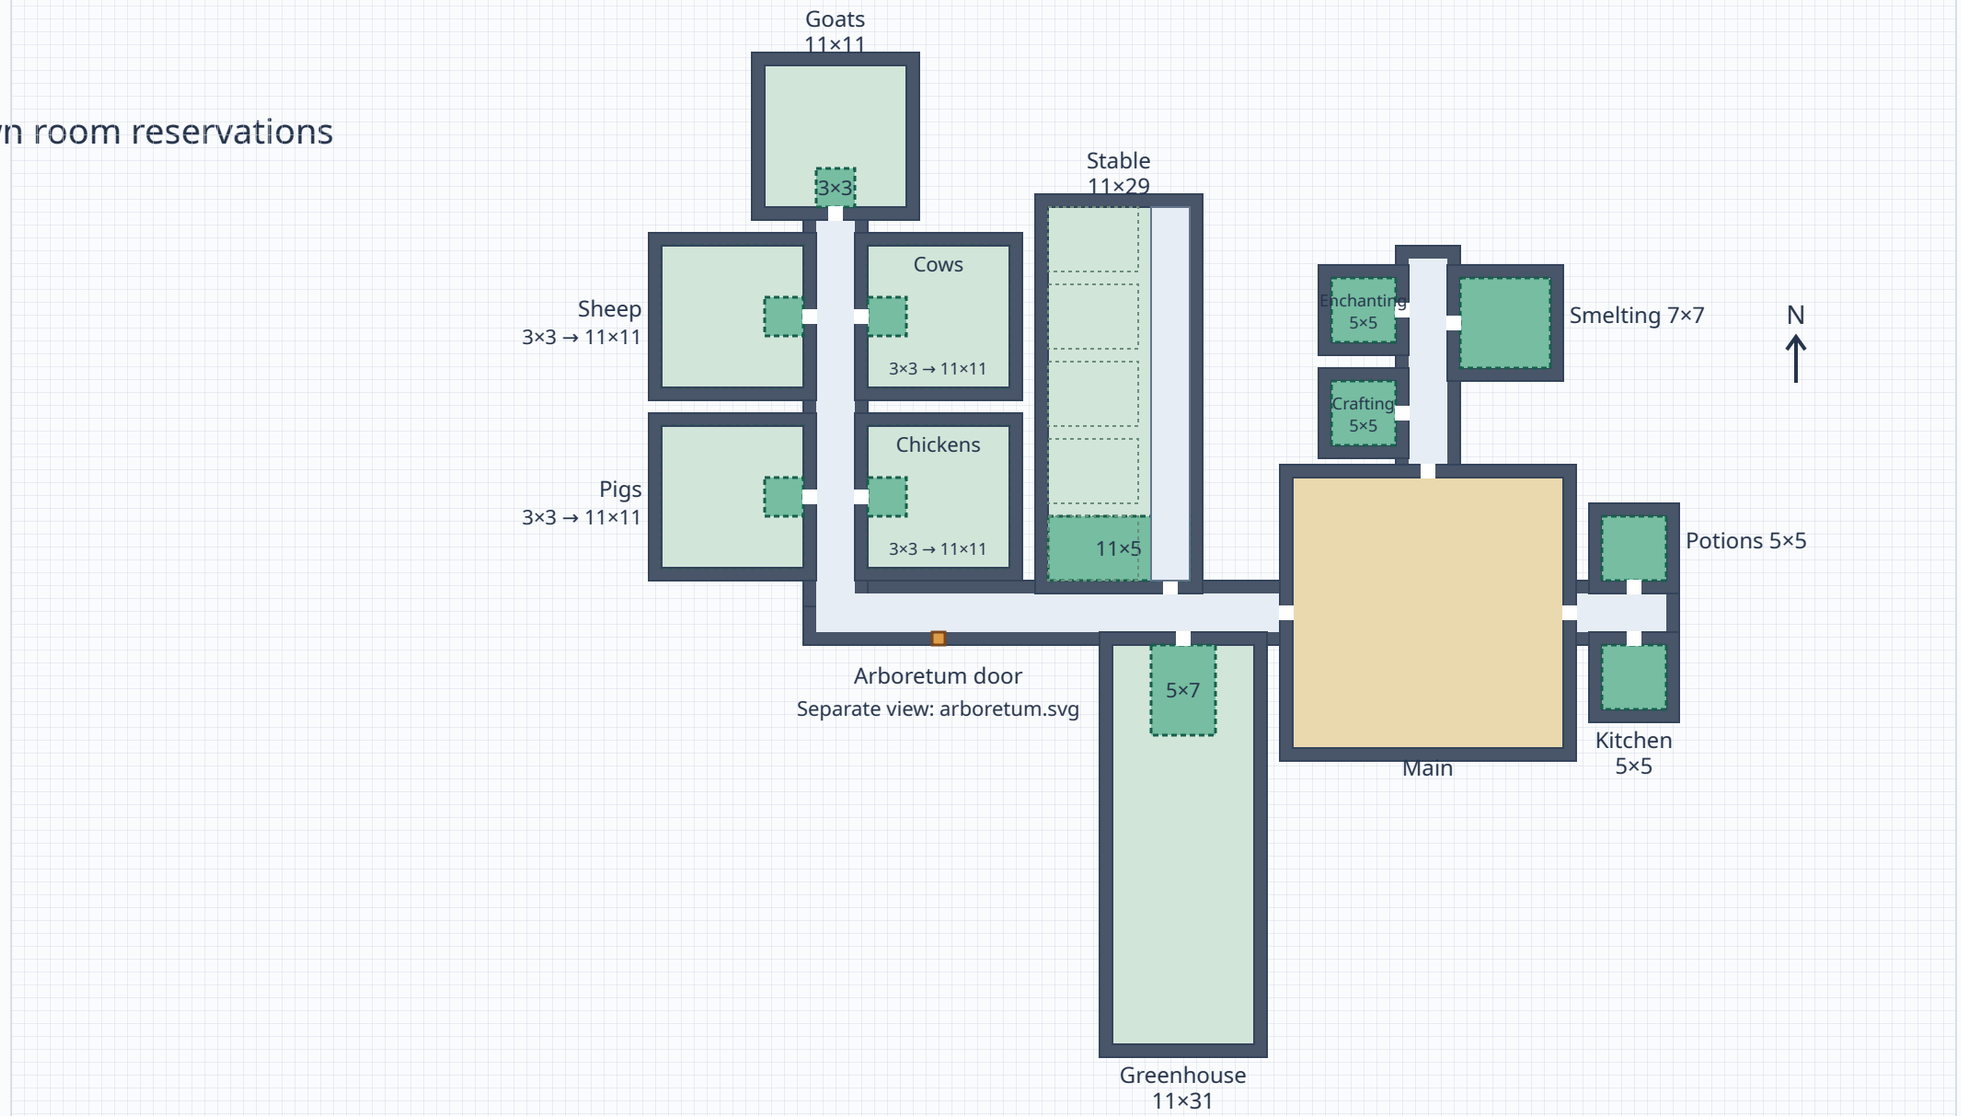
Room order, growth anchors, stable layout and one-block walls are proposals. Aquatic berth has no agreed dimensions.

Main room 5×5 · all known room reservations



Known outer footprint: 64 × 78 blocks

Main room 21×21 · all known room reservations



Known outer footprint: 80 × 78 blocks

Dark: one-block shell · light green: maximum usable floor · green dashed: minimum floor · amber: arboretum door

All nine main-room sizes (5–21) checked: known floors and room shells do not overlap; footprint stays within a 512-block cell.

Arboretum shown separately. Allocation, aquatic berth, heights, connected hallways and growth still need Design verification.
